THV COMPOZIT WINDOW SYSTEMS PREMIUM WARRANTY

This warranty guarantees a total energy savings equal to or greater than the total purchase price of a full house installation of THV Compozit Window Systems at the address shown hereon for a period of eight (8) years. The eight year total energy savings begin the first day of the month subsequent to the completed installation of THV Compozit Window Systems. In the event total energy savings over the eight-year period are less than the complete installation purchase price, the Purchaser shall notify the THV Compozit Window Systems Distributor to request the necessary forms to file for benefits under this warranty. If energy savings over the eight-year period are less than the completed installation, the Purchaser will be reimbursed the difference between actual savings and the purchase price.

Notwithstanding anything herein to the contrary, it is hereby agreed and understood that this warranty shall only be effective if the Purchaser, located at the address indicated above, has purchased a complete installation of THV Compozit Window Systems units, and remains the owner at such residence for an eight-year period after installation. This warranty is based on energy (fuel) consumption, not cost. It is subject to the following provisions:

TERMS AND CONDITIONS OF PREMIUM WARRANTY

1. The Premium Warranty covers only Total Energy Savings resulting from THV Compozit Window Systems units.
2. A "complete installation" is defined as all windows at the residence except basement, attic and porch. The Premium Warranty covers only energy savings of installations at single and two family dwellings.
3. Premium Warranty applications must be submitted to THV, PO Box 39219, Louisville, KY 40233 within 30 days of completed installation. THV not responsible for late, lost, mutilated, misdirected or postage due requests related to the Premium Warranty.
4. Premium Warranty claims, if any, can only be issued to a homeowner that resides at the specified address for a full eight-year period after completed installation date.
5. Heating/cooling system at the residence must be properly maintained.
6. Appropriate allowances for abnormal weather conditions may be made in adjusting a claim.
7. Claims under this Premium Warranty must be submitted in writing within 30 days after the complete installation eight-year anniversary.
8. Proper allowance shall be made for cost of operation, taxes and service fees of any utilities included in the fuel bill in adjusting a claim.
9. Claim adjustments, if any, will be issued within 90 days after all claim information has been received, authenticated and verified.
10. Modifications that could increase energy consumption, such as room additions, i.e., sun-rooms, heated garages, etc., to the said residence during the eight-year time period of the claim shall make such claims invalid unless submitted to THV for prior approval.
11. A change of energy related utility service at the residence shall make the Premium Warranty null and void.
12. Reimbursement determined by rates prevailing at time of window purchase. Comparison will be based on units of energy used rather than actual dollars to compensate for the inflationary increases from one year to the next. Units of energy are defined as MCF (dollars per thousand cubic feet).
13. Complete utility bills for the 108 month Premium Warranty period, or a summary form, from the authorized utility, must be submitted to claim a refund and must be forwarded via certified mail to the following address:
